DOCUMENT SCANNING + DISC ARCHIVING

Records Scanning & Archiving

Scan. Archive. Protect.

OLYMPUS SERIES

ONE OF A KIND — the only solution in the world that archives your records on discs and stores them offline in one system

Records keep growing — and so do ransomware, cybercrime and lost or stolen records. **Records Scanning & Archiving** digitizes your paper records, books, microfilm and microfiche, archives them to Blu-Ray discs and stores them offline in a lockable disc storage vault. The **best** way to securely back up and store your records is **offline on discs** — as far from hackers' access as possible.

Don't leave your records at risk — scan, then archive to Blu-Ray Disc.

- Scan paper records, books, microfilm & microfiche
- Combat *ransomware* by going "dark" with offline storage
- True WORM format — data cannot be altered or deleted
- Catalog and track all records and discs
- Maintain chain of custody — easily retrieve & present discs for evidence
- Secure access: fingerprint, RFID card & facial recognition
- Fast search and retrieval

Made in the USA

Unique Solution for Guaranteed Record Security & Affordability

Document Storage Warehouse

Are your records stored in an offsite storage warehouse? All Pro Solutions can help you digitize and store them efficiently, saving you thousands of dollars per month in storage and retrieval costs.

Digitized Records

Scan and digitize all records including paper documents, microfilm & microfiche, as well as books of all styles and sizes.

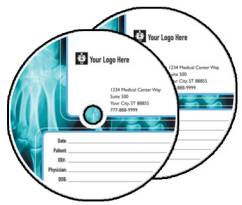

Olympus Archiving System

The files that were digitized are then archvied and backed up from where they are saved digitally, using All Pro Solutions archiving system.

Archived / Backed Up Content

Files backed up to disc are indexed and searchable down to the file name. Files can easily be retrieved with a few steps.

Offline Records Back-up Storage

Discs are stored physically in the unique Disc Storage System. Connect up to 16 storage cabinets together under the same database.

Store data Securely Offline & Air Gapped for over 100+ Years

Hacker-proof & Ransomware-safe

Document Shredding & Disposal

Document that are no longer needed to be stored physically can then be securely shredded and disposed of through permanent methods.
